

## CORPORATE

HOK New York  
New York, NY

### Project Summary:

The new design for this HOK office features an open and efficient floor plan that allows for a flexible arrangement of workstations to facilitate enhanced communications between project teams. The state-of-the-art office was designed to be bright, crisp, open and collaborative with a variety of different meeting spaces to allow for an enhanced architectural studio culture. The carpets, Euro Modern Reduced and Euro Modern Coordinating Stripe, constructed of Antron® carpet fiber by Bentley,

was one of the most important aspects of the project as it was meant to make a bold statement in high contrast to the white walls and workstation finishes. Two carpet patterns were used to define spatial areas, circulation meeting rooms, offices and the open workplace.

**Firm:** HOK

**Manufacturer:** Bentley

**Carpet Name:** Euro Modern Reduced and Euro Modern Coordinating Stripe
