

CORPORATE

The Burgess Group
Alexandria, VA

Project Summary:

The new design for The Burgess Group Headquarters combines administrative offices and workspaces along with an open design studio for computer software developers. Designers specified two carpet styles manufactured with Antron® fiber, including Landform by Tandus Flooring and Inizio by Atlas Carpet Mills. The directional nature of the rectangular pattern visually leads to the plush white accent panel. The acoustical benefits of

carpet played into the decision to feature it in the design studio. The strength and depth of the rich natural hues make it an anchor for the use of bold accent colors on vertical surfaces.
