

## HEALTHCARE

The Methodist Outpatient  
Care Center  
Houston, TX

### Project Summary:

WHR Architects was challenged to create a hospitality and spa-like environment while meeting the maintenance and durability demands for the 1.6 million square foot Methodist Hospital Outpatient Care Center. Custom Lees Carpets are used throughout the public spaces and insets, constructed of Antron® fiber, were utilized in an area rug fashion to create seating zones. The alternating perforated wood ceilings and custom carpet

patterns create intimate seating groups that reduce the expansive space and aid acoustics. Natural light cascades onto the aqua and green color pattern in the custom carpet.

**Firm:** WHR Architects  
**Manufacturer:** Mohawk Group, Lees Carpets  
**Carpet Style:** Custom styles
